Dear Dave,

I hope you can get to Dallas and check with Smimovik.

Herenclosed letter came today when I am more tired than I can recall. Probably from being out twice now that the roads are clear enough to permit that.

Perhaps if I were not so tired and so again frustrated I might be more perceptive. But if those prices, plus extra charges, are per print, I'll get only one of each. By the prices around here they are exceptionally high and I can't afford the seond set.

She also does not indicate whether except for the one they'll make the prints from the original police negatives, which is quite important for clarity, especially when the pictures are to be printed.

I do hope this is not too much trouble and I do, of course, appreciate it

Let me know the cost and I will be prompt with a check.

Many thanks and best to you all,

Harold
